## PARAGRAMS.

The Tichborne claimant bas been unable to procure bail, and so remains in confinement. A well-known female physician of Philadelphia makes on an average about \$10,000 per annum.

The New Testament revisers have got to the second chapter in Luke, and hope to finish their work in six years.

The Euphrates Valley Railroad, soon to be begun, will bring Bombay within a week's ride from London. Verily, the world progresses. Two Chicago girls, aged sixteen, recently accomplished a highway robbery, and it was a very

neat performance indeed. And yet women are not permitted the use of the ballot. The British mercantile marine consists of 37,-000 vessels, representing 6,000,000 tons. Of these 4,000,000 tons are steamers; and altogether the English have more ships than all other na-

Chas. Francis Adams, who recently returned to the United States from the Geneva Conference, says he attributes the Alabama excitement in England entirely to the upper classes, who set

the idea in motion. The projector of a new paper at Atlanta, Ga., having declared that he will "condemn the wrong and applaud the right," the Era says the task will keep him about as busy as a school boy with a hornet in his trousers.

The Catholic Directory for 1872 shows that in the ranks of the Peerage of Great Britain the Roman Catholics can reckon one Duke, (Norfolk), one Marquis (Bute), eight Earls, four Viscounts, twenty Barons, the list ending with Lord O'Hagan, the Lord Chancellor of Ireland.

The large clock at the English Parliament House is the largest in the world. The four dials are 22 feet in diameter, and every half minute the point of the minute-hand moves nearly seven inches. The pendulum is fifteen feet long, and the striking hammer weighs 406 pounds.

The submarine telegraph cables in China are suffering from the attacks of some minute crustacean so small as to be scarcely perceptible to the naked eye. Various breaks have been traced to the agency of these animals, who imbed themselves in the gutta percha.

The German Government has notified France that the Emperor William will accept an anticipatory payment of 410,000,000 france of the war indemnity, ellowing a discount of five per cent. off for cash. The French will pay the amount immediately, and thus save twenty million francs.

The total annual circulation of newspapers printed in the State of New York is 492,770,868. Pennsylvania is credited with 233,380,532. Massachusetts with 107,691,952. Illinois with 102,-686,204. Obio with 93,592,448, and California with 45,869,408.

A visitor to the Supreme Court of the United States speaks of it as supposed to be the most dignified tribunal, notwithstanding he has seen one of the Judges eat an apple with great gusto while seated on the bench, and another partake of molasses candy, and after the repast lick every one of his ten fingers with great satisfaction.

In Scranton, Pa., it has been discovered that a member of the Order of the Knights of Pythias, in that city, is a woman in disguise. The discovery was made while the hady was being initiated into the mysteries of the third degree. It has been decided that the only remedy for the mistake is for one of the brethren to marry her.

Decidedly the cleverest matron in all Europe is the wife of the present King of Denmark. Just consider the fine "matches" she has managed to obtain for her children. One daughter is the future Empress of Russia, the other the future Queen of England; one of her sons is the King of the Greeks and now the son-in-law of a

The deliberate manner in which Chicago is being rebuilt is thus illustrated in an exchange : " Let me see," said a Chicago boss-mason reflectively to a burnt-out merchant, " I have got to put up a block for Brown, this morning, and a dwelling house this afternoon, for Smith. Yes, I guess we can jerk up your store this noon by saking only half an hour noonin."

Kansas seems determined to reduce to practice what has for many years been a theory supported by many earnest men, that no community has a right to take the life of a citizen as a punishment for crime. The law abolishing the death penalty has passed both houses of the Legislature and henceforth in that State imprisonment for life is to be the extreme penalty.

The work of reducing the national debt goes on. If there is one thing more than another that should entitle the present administration to the confidence of the people it is the regularly recurring monthly report of the decrease of the public debt. During the month of February the debt was decreased \$12,000,000, making a total decrease since Grant's term began of \$299,228,310.

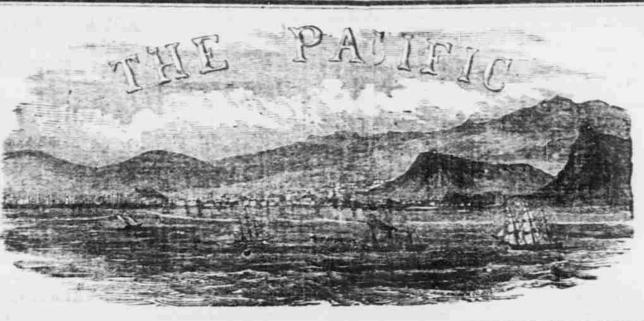

The origin of the title "The Thunderer," by which the London Times is known, was from a writer beginning a leading article with the phrase, "We thundered forth the other day," etc. Some of the Times' contemporaries, in referring to this expression, called the Times "The Thunderer," and though nearly fifty years have elapsed, the title still clings to it.

The Occident of San Francisco says: Rev. T. Dwight Hunt, first pastor of the First Congregational Church in this city, has received a call to the Presbyte ian Church in Nunda, New York. The Rev. Mr. Hunt was in 1848 stationed at Lahaina, Maui, leaving during that year for San Francisco. The writer of these lines heard him preach in April, 1848, in the school-house on the

A Hartford Good Templar, in selling a building lot in a country village, had this clause inserted in the deed: "This deed is given upon the condition that no spirituous or intoxicating liquors, ale, beer or cider shall ever be sold on these premises by the grantee, his heirs, assigns, successors, agents or lessees, and in case this condition shall not be complied with, the purchase money shall be forfeited and all buildings erected thereon."

The case of Edward S. Stokes will probably come fairly up for trial some time in 1900. The proceedings thus far are worse than a farce; but they have resulted in 500 pages of exceptions by the counsel for the prisoner. It may be safely said that a disposal of them will take time-a great deal of time; and everybody knows that their only object is a postponement of the trial of

the murderer. The English Law Courts have rendered a new reading of Woman's Rights and Woman's Duties. In a divorce case, Milne vs. Milne, a decree against the wife was granted, and for the first time, we believe, the divorced wife was ordered to pay the injured husband yearly the sum of £500 for the education and support of the children of the marriage. This, says a contemporary, shows that while women are continually claiming rights" which they aver are wrongfully withheld from them, there are also responsibilities from which the dissolution of the marriage tie will not free them. Though the children are just as much the mother's as the father's, it is the latter who has been forced to support them, how-ever rich the woman might be. Men have acquiesced in this, but suppose that they should betake themselves to theoretical grumbling?
